

**LISTING OF CLAIMS**

Claims 1-6 (CANCELED)

7. (NEW) A pharmaceutical composition in the form of an aqueous solution or powder for nasal administration of piribedil, comprising :

5        – piribedil or a pharmaceutically acceptable salt thereof,  
          – optionally a cyclodextrin, and  
          – one or more pharmaceutically acceptable excipients.

8. (NEW) A composition according to Claim 7, wherein the piribedil is in the form of the base.

10      9. (NEW) A composition according to Claim 7, wherein the cyclodextrin is a partially methylated  $\beta$ -cyclodextrin.

10. (NEW) A composition according to Claim 9, wherein the cyclodextrin is a  $\beta$ -cyclodextrin wherein the degree of substitution by methyl groups is about 1.7.

15      11. (NEW) A composition according to Claim 7, wherein, for a final aqueous solution of 10 ml, the amount of piribedil is from 10 to 500 mg for an amount of cyclodextrin of from 75 to 3750 mg.

12. (NEW) A composition according to Claim 7, wherein the composition is in powder form and the amount of piribedil is from 0.1 mg to 20 mg for an amount of cyclodextrin of from 7.5 to 75 mg.
